

## The Gillis Family shows their Support to Residents and Staff at St. Joseph's Villa

As a pure act of kindness, Johnathon Gillis and his family decided to make home made hand sanitizer for residents and staff at St. Joseph's Villa. The special delivery package came with a heartfelt note from their daughter (see below).

"In these uncertain times, this thoughtful gift for our residents and staff is heartwarming and brings a tear to the eye." stated Jo-Anne Palkovits, President and CEO/Administrator. Thank you to the Gillis family for helping keep the residents and staff at of St. Joseph's Villa safe. It is truly appreciated!
